4. HV regulations certificate
5. A certificate in good standing from Workmen's' Compensation must be provided.
6. A detailed Curriculum Vita of similar previous experience and/or expertise must be provided.

Personnel employed on the **general maintenance of electrical infrastructure including high masts and streetlights** for the **Electricity Division** shall be competent persons as defined in the Occupational Health and Safety Act (Act 85, 1993) and shall be thoroughly experienced and competent in working in close proximity of live and dangerous electrical equipment and assistants shall be adequately supervised to ensure the highest standard of workmanship. Work in proximity of live equipment must be carried out by a competent person (competent as defined in the Occupational Health and Safety Act (Act 85, 1983).

The contractor shall supply the LLM and include in the bid document, copies of all documentation in support of the qualifications and experience of the personnel he intends to use. Contractors who cannot offer competent, qualified electricians, (as defined in the Occupational Health and Safety Act (Act 85, 1993)) and inexperienced personnel in this field will not be considered and their bid will be rejected.

### **OVERVIEW OF THE WORKS**

The contractor may however be requested by the Electricity Department's authorised representative to carry out only a certain item/section/portion of the work as per the bill of quantities and be paid accordingly.

The Contractor shall provide the resources, personnel, transport, equipment, hand tools, consumable spares and materials (where requested to do so), necessary to carry out the repairs and maintenance on the Municipalities electrical network as and when required (this will require the Contractor to make himself/herself available to carry out repairs, etc, 24 hours a day and 365¼ days a year and the contractor shall be on site of the repair work to be carried out within one hour of being contacted by the Lesedi Local Municipality – Electricity Division, with all personnel, material and equipment necessary to carry out the task required.

### **BASIC DESCRIPTION OF THE VARIOUS TASKS**

The contractor must collect all material required for the successful completion of the work, either from the Electrical Depot or the Municipal Store. The Contractor remains responsible for the correct material, even if the material is provided by the Municipality.

***The contractor or his/her representative must be available on call during office hours and after hours by means of a cellular phone and the cost of the cellular phone calls made by the contractor to the Municipality to be included in the rates.***

Contractors must identify themselves on request to all customers, stating their business and producing proof of their appointment for the task.

**The contractor or his/her representative must be available on call during office hours and after hours by means of a cellular phone and the cost of the cellular phone calls made by the contractor to the Municipality to be included in the rates.**

If it appears to the LLM that the Contractor:

- ❖ Has not commenced the work timeously; or
- ❖ Has not made due progress with the work or exercised due diligence in its execution or maintained it satisfactorily; or
- ❖ Has not completed the work timeously; or
- ❖ Has not executed the work in accordance with this agreement; or
- ❖ Has failed to comply with any other provision of this Agreement; or
- ❖ Has abandoned the contract,

**LLM may issue a written warning to the Contractor regarding his/her non-compliance to the tender specifications. After one (1) written warning notice for non-compliance with the prescribed tender specifications, the Contractor may be deemed to be in breach of Contract, and the appointment may be terminated.**

**In instances where material cannot be supplied by the Municipality, the successful contractor/s can be requested to supply the required material according to the LLM specification at market related cost (proof of purchase will be required which must be market related) and the successful contractor/s will be allowed a mark-up of 10% on the said purchased equipment.**

**In the event of any dispute arising from whether such pricing is market related or not, three quotations will be called by Lesedi Municipality for the same material from three different suppliers and the cheapest of the three will be accepted by the contractor and LLM as the market related value.**

### **Site maintenance**

During progress of the work and upon completion thereof, the Site of the Works shall be kept and left in a clean and orderly condition. The Contractor shall store materials and equipment for which he is responsible in an orderly manner, and shall keep the Site free from debris and obstructions.

The Contractor/Tenderer shall provide the necessary watch guards as required in order to guard the contract sites, works and equipment, while the work/task is being carried out, if required. Material and spares must be relocated to a safe location in the case of where the repair procedure takes a number of days to complete the task, the relocation and storage will be the responsibility of the Contractor/Bidder.

**Please note that the Contractor/Bidder will be responsible for the safe guarding and in the event of theft, vandalism or damage, the replacement of any material issued to him/her by LLM, until such time as the equipment has been energized and taken over by LLM.**

**The Contractor/Bidder must therefore ensure that he/she is adequately insured against any such possible occurrences and proof of such insurance should be provided.**

#### **Damage to services**

The contractor will be responsible for any destruction/damage in determining the exact extent and location of any services and shall be liable for damages to any such services or any damages suffered by a third party as a result of the excavations carried out by him/her. **Damage to services shall immediately be reported to the relevant department.**

The Electricity Division shall, upon the contractor's request, render the necessary assistance to point out to the contractor any services on site. The contractor must make application for way-leaves in terms of the Municipalities standard requirements.
